TÜYAP Brings Together Wood Processing Technology and Furniture Side Industry Sectors in Izmir!

TÜYAP, the biggest fair organizer in Turkey, brings together outstanding companies in wood processing technology, furniture side industry and accessories in Izmir, at one of the most important exhibition area investments in the sector in our country, Fuarizmir, through IZWOOD and Izmir Furniture Side Industry Fairs ...

In Izmir TÜYAP, in cooperation with Wood Working Machinery and Side Industries Businessmen Association (AIMSAD), will be organizing IZWOOD 2017 Izmir Wood Processing Machines, Cutting Tools, Hand Tools Fair and Izmir Furniture Side Industry, Accessories, Forestry Products and Wood Technology Fair at Fuarizmir between 8 to 12 April, 2017.

In the scope of IZWOOD 2017 Izmir Wood Processing Machines, Cutting Tools, Hand Tools Fair, machinery, technical equipment and services, wood processing machines, surface processing machines, wood cutting machines, electrical and mechanical hand tools and furniture production machinery for forest industries will be introduced at first hand to the Aegean Region, regional countries and adjacent regions. Leading companies of the sector as well as sector associations, publications and institutions will be participating the fair.

In the scope of Izmir Furniture Side Industry, Accessories, Forestry Products and Wood Technology Fair, that will be organized simultaneously at the same location, wood forestry products, furniture accessories, chemicals, paint, lacquer, polish and colorants, seating group and bed production materials, production tools, equipment and ancillary products will be exhibited.

The synergy of the two concurrent fairs will bring together the wood processing and furniture side industry sector as a whole, from processing of raw materials to delivery to end users.

Additionally, PLASTPAK Plastic and Packaging Technologies Machinery and Equipment Fair will be held in the other hall between the same dates; plastic machinery, chemicals and raw materials, molds, heat and control instruments, machinery side and intermediate goods industry, hydraulic and pneumatic systems, packaging machinery, packaging products, auxiliary instruments, equipment and systems, raw materials and semi finished materials, services and recycling products will be exhibited in the scope of the fair.
